10	AC Assignment:- As it is difficult to make a commitment to an event in 2033, Mike recommend the OGA make it known that there is an "intention" to organise a RBC70 in order to help Members make tentative plans.	MB

be review for accuracy. Julian to hide all boat handicaps. Julian to put something in the Gaffers Log asking Members to check the measurements of their boats are correct, then resubmit their data using the online form before their handicap is displayed. Julian to add a confirmation button for boat owners "I've checked my boat data", with the date displayed. Julian to look into also sending a Mailchimp email to all boat owners that includes a table of their measurements already in the Boat Register and a system for them to reply with updates or a confirmation button. Pete offered to help by checking EC Member's boats that race regularly. If any Area wants to purchase a long tape measure for boat checking they can claim the cost from central funds by contacting Tony. It is recommended that race organisers put in the Notice of Race a warning that boat measurements used to calculate handicaps may be checked by the organisers.
